Linda Grant, PhD, Director of the Center for Health Systems Research and Analysis

Dr. Linda Grant is the Director of the Center for Health Systems Research and Analysis at USF-PAMC. She is a senior advisor to the Florida Department of Health and has a long history of research and leadership in health care systems. She is currently working on several projects related to the implementation of value-based care and the impact of the COVID-19 pandemic on health care systems. She is also a frequent speaker at national and international conferences on health care systems research and analysis.

Dr. Grant is a past president of the American College of Health System Executives and a past president of the Florida Health Care Association. She is also a member of the American Academy of Health Care Executives and the American Society of Health Care Executives. She has been recognized for her leadership and contributions to the field of health care systems research and analysis.
