

Course Registration Guide and Program of Study Form for students in
PhD Civil Engineering No Concentration

In the CEE department at USF graduate students are

Peer Reviewed Publication &
Oral Defense

Total Minimum Credits Required:
75 Credits-

Qualifying Exam Doctoral students must pass a qualifying exam no later than the semester following completion of 48 credits of coursework beyond a Z o degree. At minimum, the exam will include a written dissertation proposal and oral defense by the dissertation committee. A written exam in the area of concentration may also be required. Poor performance on the qualifying exam based on the judgment of the committee may result in the student failing the exam. If a student does not pass on the first attempt, they may request in writing to repeat the exam. Students who fail the second time will be dismissed by the program.

Publication Requirement- The department requires that all doctoral students have a paper accepted to a peer reviewed journal or conference. Please discuss this with your advisor early as it can take six months or more to receive review comments back from a journal. Many faculty members in the department require their students to have more than one paper accepted.
