Overview

Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, gender and race/ethnicity. In addition, first-time student retention rates and the student-to-faculty ratio are collected. Every other year data on residence of first-time undergraduates is required and in opposite years, enrollment by student age is required to be reported.

Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report Fall enrollment as of the institution's official fall reporting date or October 15. Institutions operating on a calendar that differs by program or that enrolls students on a continuous basis (referred to as program reporters) report Fall enrollment as students enrolled any time during the period August 1 and October 31.

Data Reporting Reminders:

- Part B, Enrollment of students by age, is optional this year.
- Part C, Residence of first-time degree/certificate-seeking undergraduates, is required this year.

Recent changes:

• There is one change to the 2016-17 Fall Enrollment component from the 2015-16 collection. The one change is for retention rates. IPEDS ask that you report inclusions in the adjusted Fall 2015 cohort. For inclusions to the Fall 2015 cohort, report first-time bachelor's seeking study abroad students who were excluded from the first-time cohort but who have re-enrolled at the institution their second year.

Part E - First-time Bachelor's Cohort Retention Rates (Part-time)

Retention Rates Part-time, First-time Bachelor's Cohort from Fall 2015

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2015 and retention based on August 1, 2016.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

Retention Data Reporting Reminders:

- Include only part-time, first-time bachelor's-seeking students in this cohort.
- Determine part-time using Fall 2015 attendance status (e.g. if a student was part-time in Fall 2015, report them in the part-time cohort regardless of their Fall 2016 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
