Guidelines for Charging Costs Directly or Indirectly to Federally Sponsored Projects

Federal awards issued prior to December 26, 2014 are required to be managed in accordance with OMB Circulars A-21, A-110, and A-133. Federal awards issued on or after December 26, 2014 are to be managed in accordance with 2 CFR Part 200: Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal Awards (The Uniform Guidance) or the appropriate regulations applicable to the award as specified in the Notice of Award issued by the funding agency.

Cost Accounting Standards (CAS) 48 CFR 9905.501, 9905.502, 9905.505, and 9905.506 were included in the revised cost principles of the Uniform Guidance (See 2 CFR §200.419).

Effective May 8, 1996, the Office of Management and Budget (OMB) revised Circular A-21 to incorporate four Cost Accounting Standards applicable to educational institutions. The Cost Accounting Standards Board (CASB) issued these on November 8, 1994, and the A-21 revision extended the standards to all sponsored agreements.

The University of South Florida has established the following guidelines for charging costs to projects funded with federal or federal flow-through monies. These guidelines apply to USF: ampa (including USF Health), Sarasota-Manatee , and St. Petersburg

•

Exceptions will be permitted only under the following circumstances.

<u>General Purpose Equipment:</u> Direct charging of general purpose equipment should be restricted to projects where equipment is required to accomplish the project's distinctive scientific, technical and/or programmatic requirements and used exclusively for project activities and objectives.

<u>Scientific Software</u>: Direct charging of scientific software items should be restricted to projects that are specifically justified in the budget narrative and not specifically disallowed.

<u>Non-federal Sponsored Agreements</u>: All costs may be direct charged to a non-federal sponsored agreement as long as the awarding sponsor has approved them.
